Ern Millard is a Senior Consultant with ERGOSH Safety Management Services Pty Ltd.

He has an extensive range of experience assisting industry to manage health and safety over a period of twenty years. Ern has worked as a consultant to industry on health and safety issues and has previously been the Manager of Safety and Environment at Ford Motor Company of Australia.

Ern can provide consultancy services and advice in a range of areas including health and safety management systems, ergonomics, manual handling, plant safety, emergency procedures and accident investigation.

Ern provides assistance to enterprises in the development of health and safety policies and procedures and evaluates health and safety management systems. He also conducts assessments and audits under the Victorian SafetyMAP system and other audit tools.

Ern conducts plant risk assessments or can train your staff to conduct these assessments. His role as the Chairman of the Standards Australia Committee responsible for Safeguarding of Machinery and extensive experience in relation to plant and equipment enables him to effectively assist organisations to implement effective plant safety strategies.

He has had extensive experience in conducting and co-ordinating the investigation of serious accidents and can assist your organization to establish procedures for conducting their own investigations.

Ern has extensive experience in the development and delivery of training programs. He can tailor courses to meet your specific requirements.

Ern has a Graduate Diploma of Occupational Hazard Management, Certificate of Mechanical Engineering, and Certificate IV in Assessment and Workplace Training. He is also currently completing a Graduate diploma of Occupational Hygiene. Ern is a Member of the Safety Institute of Australia.
